

KNOWING is clarity: help your immunocompromised patients get SARS-CoV-2 (COVID-19) molecular tests with pharmacy drive-thru testing

To help your immunocompromised patients get necessary care, **Quest Diagnostics is working with Walmart® Neighborhood Markets to provide convenient drive-thru SARS-CoV-2 (COVID-19) molecular (NAAT) testing.** These tests are available for any patient who meets the guidelines outlined by the Centers for Disease Control and Prevention (CDC).

Convenient and accessible*

- Testing at >500 Walmart Neighborhood Market pharmacy drive-thru windows
- Monday - Friday, 9AM-4PM (no testing 1PM-2:30PM)**
- Patients administer the test in their own cars by observed self-collection, and samples are deposited into an external collection box; no sample will enter the pharmacy

Aligned with CDC/state guidelines

- Patients must meet CDC and state/local guidelines
- Face masks required
- Appointments required

Easy to order and schedule

- Order through Quanum® Lab Services Manager or your EHR using the on-hold feature and our one-code ordering system (39448)
- Patients must schedule an appointment at www.MyQuestCOVIDTest.com
- Results can be obtained via MyQuest™

Observed self-collection for enhanced safety

- Trained Walmart pharmacists observe testing, helping to ensure self-administered nasal swabs are done correctly
- Self-collection of specimen provides an environment with enhanced safety measures to help support the immunocompromised

IDENTIFY

a Walmart Neighborhood Market testing location near you

SEND

a requisition through Quanum® Lab Services Manager or your EHR

EXPLAIN

to the patient what's needed for the appointment

ACCESS

results through Quanum® Lab Services Manager or your EHR

Providing clarity in the face of uncertainty. **For more information, visit QuestDiagnostics.com/COVID-19.**

* Please note: COVID-19 molecular (NAAT) testing is not available inside any Walmart store or in any Quest Diagnostics Patient Service Center.

** Testing hours may vary by location; please visit the appointment scheduler to find available dates and times for a location near you.

- The molecular test has not been FDA cleared or approved
- This molecular test has been authorized by FDA under an EUA for use by authorized laboratories
- This molecular test has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens
- This molecular test is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1), unless the authorization is terminated or revoked sooner
